

SC Restructuring Questions and Answers
November, 2002

Q. When will individuals who are currently EM FTEs at the PNNL Site Office know that they are/aren't being transferred to SC? We have heard a lot of rumors relative to the timing and number of transfers.

A. **It is still anticipated that the PNNL Site Office will "stand up" January 1st and AMT staff will report to SC at that time. Discussions are currently underway with RL, EM and SC regarding any additional transfers, such as matrix support personnel. For budgetary reasons, funding for the PNNL Site Office will continue to come from EM through FY03 and is anticipated to shift to SC beginning in FY04.**

Q. For multi-program sites has a decision been made as to the environmental permitting and NEPA processes? (i.e., will they remain under one PSO, as site wide permits or MEPA documents, or will separate permits and NEPA documents be required to be prepared and approved for SC.)

A. **The environmental permitting and NEPA processes have not been worked out yet. They are being worked and many of those most effected are being given the opportunity to participate in the process. Specifically for RL/PNNL, a team will be set up to look at the issues and recommend the most appropriate solution.**
